Adobe CS  
Balsamiq  
Overflow  
Zeplin  
HTML  
CSS

## Skillset

UX design  
UI design  
UI development  
Graphic design  
Illustration  
User testing  
Prototyping  
Wireframing  
User flows

## Education

### **Simon Fraser University**

BA, Interaction Design  
2009 - 2015

## Experience

### **Product Designer @ Wiivv**

June 2016 - Present

I work on the digital product team where I collaborate closely with the Senior Designer, Product Manager, and Software Leads. Responsibilities include the user experience and visual design of the e-commerce website and mobile app and providing design support for marketing and sales.

Aside from the main responsibilities I have for Wiivv, I also work on the visual and UX of the app and web for our partner, Dr. Scholl's.

### **Graphic Designer @ Rise People**

January 2016 - June 2016

Collaborated with the Marketing team to create digital and print collateral pieces that were used on the website, blog, webinars, and open house events. Illustrated several branded images for the company's blog, social media pages, and eBooks. Built landing pages to promote monthly webinars.

### **Graphic Designer (co-op) @ BlackBerry**

May 2012 - May 2013

Worked in a team of Project Managers and Graphic Designers. Designed branded print and digital advertising pieces.

## Community

### **Mentor @ The HTML500**

2017

Spent a day teaching the fundamentals of HTML and CSS to new developers of all ages. I was one of 100+ mentors who volunteered in helping out 500 mentees at this annual Vancouver tech event.
